Few celebrities touched the world as Steve Irwin. Beloved

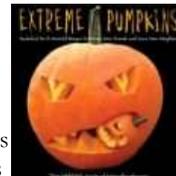

by people from all walks of life, his vast efforts at conservation continues to make a difference all over the globe. From the woman who knew Steve best comes a loving, moving story of their life together, his astonishing legacy, and the man behind the Crocodile Hunter phenomenon. Their story is not just one of taking a noble cause to new heights of success and recognition, it is also a fairytale love affair.

Sweety Pies
 by Patty Pinner

In this culinary memoir Pinner features over 50 home baked pies and weaves personal stories with recipes for such as Apple and Mixed

Berry, as well as less common but equally delicious such as Lemon Chess Pie and an ice cream based caramel Tin Roof Pie. Each recipe is accompanied by an anecdote from the author's childhood, giving readers the feeling of being in the kitchen with Pinner as she reflects on family and friendships. This cookbook is as much about love, life, family, friendship, and community as it is about recipes.

Extreme Pumpkins
 by Tom Nardone

Tom Nardone is the founder of ExtremePumpkins.com, and is single handedly reclaiming Halloween with his shocking, funny, and vivid pumpkin designs. Pumpkins are supposed to be scary! Based on his popular and addictive website, ExtremePumpkins.com, Tom has created a full color guide to pumpkin carving that's truly frightening. Featuring the website's signature Puking Pumpkin, and spanning everything from Drowning Pumpkin, Crime Scene Pumpkin, and Cannibal Pumpkin to Electrocuted Pumpkin and other never before seen designs, this gleefully gory guide is nothing short of a manifesto to take back Halloween from the cheerful, the cutesy, and the parent sanctioned. For the egg throwing, toilet tissue streaming, window soaping teenager in all of us, finally — a whole new way to celebrate October 31.

It's YOUR Library...

We asked library Patron "Tee"

Conner, what he has to say about his library....

Reading has been my hobby my entire life.

Growing up in rural

Oklahoma before the days of TV and all the modern

forms of entertainment, I read. I remember the excitement the 1st weeks of school when I learned to read. I would come home from school and read to my mother the stories of "Joe and Jane". Not having books or newspapers at home, I discovered

school quite early and they would even let us check them out to read at home.

We would buy our school books and I never threw one away or tore it up—I still have some to this day!

I've traveled the world with books. I've been using the library here in Fort Stockton now

going on 50 years. I've hardly ever missed a week without 2 or 3 times at the library.

There is no way for me to describe the friendliness of the library staff. They are always helpful, always

got a smile. They know most of us

regulars by our names. Our library is very modern—always the newest

novels, newest videos, and upgraded computer services. Reference books by

the hundreds for us old foggies who are not really comfortable with technology.

If you like books and newspapers like I do, our library is where to go to have

a relaxing learning experience. Notice I said, "our library".

Labor Day

Labor unions themselves celebrated the first labor days in the United States, although there's some speculation as to exactly who came up with the idea. Most historians credit Peter McGuire, general secretary of the Brotherhood of Carpenters and Joiners and a cofounder of the American Federation of Labor, with the original idea of a day for workers to show their solidarity. The first Labor Day parade occurred Sept. 5, 1882, in New York City. The workers' unions chose the first Monday in September because it was halfway between Independence Day and Thanksgiving. The idea spread across the country, and some states designated Labor Day as a holiday before the federal holiday was created. For a lot of people, Labor Day means three things: a day off, the end of summer and a day set aside to pay tribute to working men and women.
